

Train to Gain & Higher Education

Linking Train to Gain (T2G) Brokers with HE in the West Midlands

Working with all providers of HE in the H&W area this project will help:

- Increase the number of appropriate referrals to institutions providing HE by the Brokerage Service
- Increase the engagement of employers with HE in terms of sending students on modules or courses, and in terms of commissioning research and knowledge transfer expertise.

- Increase understanding of any gaps in current provision which can be filled by the providers.
- Improve communication between the LLN and partners and the Train to Gain Brokerage Service

If you are an Employer:

Contact Jim (details below) and ask about the wide range of HE being delivered on your door step and potential funding that is now available through T2G and many other Government initiatives

If you deliver Higher Education:

What are you delivering to business?

Let us know and we can help you promote your courses to local employers
